EDUCATION

University of Pittsburgh

Expected May 2029

B.S., Cybersecurity Analytics and Operations (Information Sciences & Technology)

Pittsburgh, PA

- Relevant Coursework: Networking Fundamentals, Cybersecurity Principles, Programming Concepts, Data Analytics

TECHNICAL SKILLS

Programming Languages: Python, JavaScript

Technical Knowledge: Computer hardware, networking concepts (TCP/IP, protocols), cybersecurity fundamentals, cryptography

Tools & Platforms: macOS, Windows, IDLE (Python), Pygame, Streamlit, Visual Studio Code

PROJECTS

Password Strength Checker

2026

Python, Streamlit

- Built a web app that analyzes password input across 6 security criteria including length, character variety, and special characters
- Implemented a dynamic strength rating system (Weak to Very Strong) with a visual progress bar and targeted feedback to guide users

Caesar Cipher Encoder/Decoder

2026

Python, Streamlit

- Developed an interactive cryptography tool that encrypts and decrypts text using the Caesar Cipher algorithm with an adjustable shift value of 1–25
- Included real-time letter shift visualization and toggle between Encode/Decode modes, demonstrating applied cryptographic concepts

EXPERIENCE

Carhop — Sonic Drive-In

2024 – 2025

Oakdale, PA

~20 hours/week

- Delivered food orders and provided customer service in a high-volume, fast-paced environment
- Interacted with 200+ customers per shift, strengthening verbal communication and time management skills
- Maintained accuracy and efficiency under pressure while managing multiple orders simultaneously

Programming Intern → Student Leader — STEM-E Online Internship

Grades 9–11

Remote

~5 hours/week

- Joined a competitive 500+ member STEM internship focused on introductory programming and game development
- Contributed to collaborative coding projects and earned a leadership role, mentoring beginner participants
- Received a formal letter of recommendation from internship coordinator for performance and initiative

ACTIVITIES & LEADERSHIP

Engineering Club — Penn State Beaver

Fall 2025

- Participated in technical problem-solving discussions and collaborative engineering projects

Student Government — Penn State Beaver

Fall 2025

- Engaged in student representation initiatives and campus involvement activities

Varsity Track & Field / Basketball / Esports — South Fayette High School

Grades 9–12

- Competed in multiple varsity-level teams; developed teamwork, discipline, and strategic thinking through Esports
